

# Safety and Environmental Management

Mike A. McNeill, PE, CSP

Environmental Management Division

NASA Headquarters

# Safety & Environmental Management

- Environmental Management Systems
- Environmental Functional Reviews
- Other Environmental Projects
- General Environmental Trends

# Environmental Management Systems

- Required by EO 13148 (12/31/05)
- Very similar to QMS, VPP, et al
- Approximates ISO 14001
- Three testbed facilities
  - GRC, JSC, SSC + WSTF
- Presentation to EMB, CIC later this year

03/22/2001

# Environmental Management Systems

## General EMS Elements

- Environmental Policy
- Planning
  - Legal & other Requirements
  - Objectives & Targets
  - Environmental Management Program
- Implementation & Operation
  - Structure & Responsibility
  - Training, Awareness & Competence
  - Communication
  - Documentation & Document & Record Control
  - Operational Controls
  - Emergency Preparedness & Response
- Checking & Corrective Action
  - Monitoring & Performance Measurement
  - Nonconformance & Corrective & Preventive Action
  - Auditing
- Management Review

# Integration

# Environmental Functional Reviews

- Models an EPA multimedia audit
- Uses USA-CERL Protocols plus EMS Checklist
- Several potential crossovers provide data for safety consideration
  - Hazardous Materials & Wastes
  - Hazard Communication
  - Training Programs

# EFR Insights for Safety

- **Training Delivery vs. Training Management**
  - Every Center ISO document says “Supervisor is responsible for deciding on training”
  - Does the supervisor have the tools they need to make these decisions?
- **What’s in the Performance Plans?**

# Other Environmental Projects

- Environmental Staffing Model
- Sustainable Design/Design for Maintainability (Code JX)
- Risk Management & NEPA
- Environmental Professional Training Matrix

# Environmental Staffing

03/22/2001

03/22/2001

# Environmental Staffing

Percent Change in Five Environmental Areas

Delta 1994 to 1999

# Environmental Staffing

- Built a Model
  - external benchmarks
- Built a Business Case
  - 10-year change analysis
- Linked to External Audits
  - Federal, state, IG, et al
- Evaluation to Code A
- Reassessment through EFR

# Other Environmental Projects

- Environmental Staffing Model
- Sustainable Design/Design for Maintainability (Code JX)
- Risk Management & NEPA
- Environmental Professional Training Matrix

# General Environmental Trends

- Pollution Prevention
  - EPA is moving towards “source reduction”
  - Much more invasive than old “end of pipe” philosophies
  - Crossover benefit to safety, budget
- Threshold limits are dropping fast
  - Reporting limit for lead (Pb) just went from 10,000 to 100 lbs/yr

03/22/2001
